

→ Wh questions + How
Method of binary

→ Environment:

Trees	Wildlife / Flora & Fauna
Degradation	Interdependence / Cycles
Mountains	Ecosystem
Oceans / Rivers	Humans ★

• Binary:

1. Human Nature
2. Man / Environment
3. Culture / Nature
4. Myth / History

Global North — Developed Countries (USA, Europe)

Global South — Non-developed Countries (India, Africa)

→ Technology away from Nature (in-context of Environment)
Resources exponentially used by the population
Inequality + Injustice (Powerful people vs. indigenous community)

* Anthropocene ↔ Humans (responsible) — Not All

• Fast Clothing : Cotton — Natural
Polyester, Nylon — Artificial

* Capitalocene — Comes from Capitalism
Which Humans ? Create Policies

- Anthropocene

↳ Paul J. Crutzen & Eugene F. Stoerner

↳ Anthropose + Kainos / cene (greek)

↳ Human

↳ New / Recent

↳ The Hungry Tide
- Amitabh Ghosh
Sundarbans

Earth → New Geological epoch → Human activities shape the planet.

- Greenhouse Gases
 - Deforestation
 - Urbanisation
 - Industrial Agriculture
 - Biodiversity Loss
 - Pollution
 - Nuclear Fallout
-
- Capitalocene
 - ↳ Jason W. Moore - Critique of Anthropocene
 - ↳ Humans shape ecosystem, Misleading ∴ Not all responsible
Historical development of Actors ← Primary driver for destruction.
